Eric -

I would like to participate in the GIS training.

- Mike

Subject: GIS Tool Training Session

All, as we have discussed, the LWG will be submitting a GIS mapping tool to assist the government team in the identification of AOPCs on March 27, 2009. We are planning a GIS Tool planning session for April 9, 2009 beginning at 9:00 am. We expect this to be a web-based meeting to allow people to participate from the computers that they will be using to do any analysis. If you are planning on performing any AOPC mapping at your work station, we are recommending that you participate in the training session. However, it is not necessary to perform AOPC mapping at your individual work station. At the data retreat, we will be presenting AOPCs developed prior to the retreat by a core GIS team and using GIS tools to answer questions and further explore AOPCs at the site.

Please respond to this email and let me know if you are interested in participating in the training. That will assist us in the planning of the training session.

Thanks, Eric
